Profit from our expertise

Corrugated packaging that sells

Packaging expertise

TRM is driven by an exceptional understanding of its customers' needs and the markets within which they operate.

TRM builds mutually beneficial partnerships which it achieves through its skilled consultants who offer a versatile, personable approach. TRM's expertise helps its customers respond to the ever-changing needs of their market.

By designing and manufacturing optimal products, TRM eases the introduction of new packaging and contributes to the success and profit of its customers.

Supply chain optimisation
- Supply chain audits
- Getting it right first time

Innovation
- Agile in response to requirement and customer needs
- Investing in our design team and packaging

Design
- Increasing shelf shout and supply chain efficiency
- Protecting and promoting products

Change management
- Understand product requirements, the production process and supply chain
- Smooth introduction of new lines

Technical
- Improving capabilities
- Controlling processes to deliver more consistent results

Manufacturing
- Flexible to meet seasonal demands
- Highest quality machinery and unique capabilities

Corrugated portfolio

TRM designs and manufactures the complete range of conventional corrugated products, from basic brown transit cases to innovative and high quality post-print packaging.

The company's conventional range includes cases, fitments, flat and pre-glued trays up to double wall combinations.

One touch replenishment
- Improve product availability and retailer performance
- Reduced storage and transport costs

Retail ready packaging
- Improve product availability and enhance environmental credential
- Robust through the supply chain with maximum impact on the consumer

High Quality Print
- Göpfert Impression printer offers industry leading seven colour capabilities
- Lead time of days, not weeks

Cases and trays
- Able to meet a variety of sizes, flute and strength requirements
- Virgin and recycled substrates

Multi-point glued
- Improving packing efficiency while maintaining front-facing shelf appeal
- Standard and tailored designs depending on requirement

Die-cuts
- Bespoke hand erect cases and fitments to protect your product throughout the supply chain
- Adding strength and visibility on shelf

"Yes, we make excellent boxes,
but that's only a fraction of the TRM story."

Importance of high quality print

Secondary packaging has numerous benefits and one of the most valuable when delivered effectively is eye catching presence on shelf. Consumers increasingly associate high quality printing, finishes and packaging with the brand and quality of the product.

Nearly 80% of all purchasing decisions are made in-store meaning visually prominent packaging is a must. TRM understands this vital retail driver and has invested heavily in machinery with industry leading capabilities to deliver this.

TRM's consultants use these tools while working with their customers to create appropriate, effective and visually striking designs that increase brand wareness to:

- **Maximise shelf presence**
- **Stand out at point of sale**
- **Convey brand image and values**
- **Drive sales**

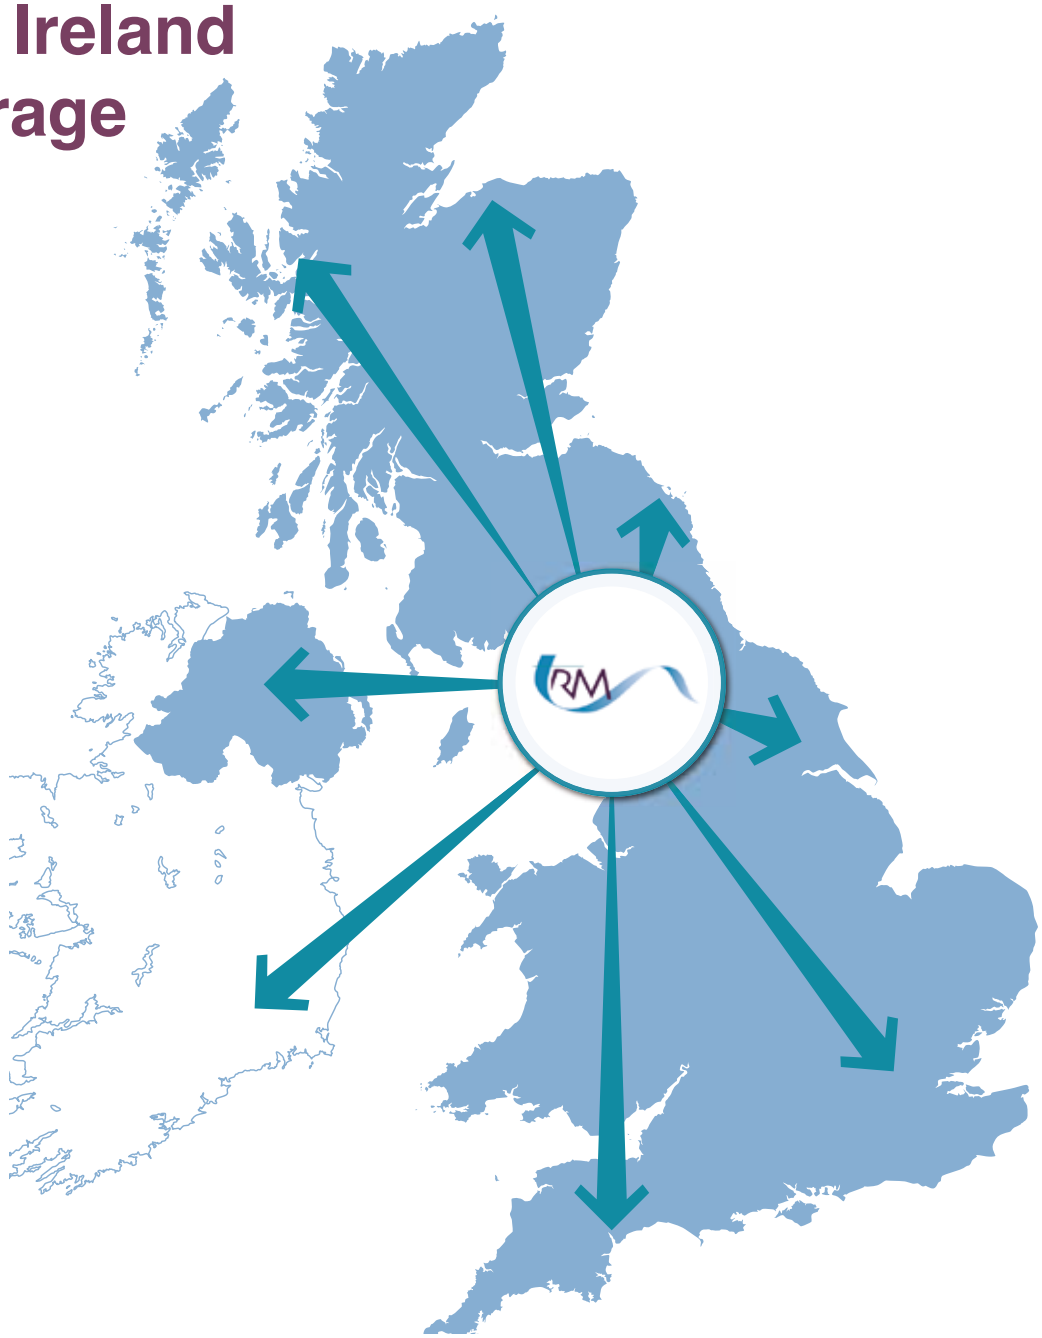

About TRM

TRM is the UK's leading independent manufacturer and supplier of retail ready packaging to the food, drink and FMCG markets. Established in 2001, TRM provides products that help its customers achieve commercial objectives and maximise profit.
